Under each time period, we'll list important topics with links to notes you can use. Try to categorize the mistakes by content area so you can look for patterns and determine which parts of the course you need to study the most. Get more guidance on how to use official practice resources in our collection of APUSH practice tests. Maybe this sounds super weird, but we often find that the weirder the method of remembering something is, the more likely it will stick in your mind. These won't help much with the more analytical elements of the test, but if you want to test your knowledge of facts, they'll serve you well. Theme 3: Geography and the Environment Focuses on the role of geography and both the natural and human-made environments in the social and political developments in what would become the United States. Look at all these themes! It's like being at a theme park minus the scents of fried food and despair! Also, I HIGHLY doubt this roller coaster could pass a safety inspection. Make sure your study methods lend themselves to the format! #1: Make Thematic Connections The ultimate goal of AP US History is for you to be able to connect individual events to the main themes of the course and draw conclusions about historical trends based on your analysis. Make a list in descending order of the topics that correspond to the highest number of missed multiple-choice questions and missed points on short-answer and free-response questions. The question choices focus on the same skills and the same reasoning process (e.g., comparison, causation, or continuity and change), but students choose from 3 options, each focusing on historical developments and processes from a different range of time periods—either 1491-1800 (option 1), 1800-1898 (option 2), or 1890-2001 (option 3). This should help you figure out whether you've truly mastered the material. Plan out your essay before you start writing to keep yourself on track.
